## DUST OFF YOUR TENNIS RACKETS!

CVE TENNIS COURTS WILL RE-OPEN ON SATURDAY, JULY 23, 2005

The CVE tennis courts have been refurbished. The refurbishment included crack repair, new asphalt with PetroMat reinforcement and acrylic surface paint which is formulated for high altitude.

We hope than you will visit the courts and rediscover the game of tennis on a great playing surface.

In order to protect your investment, please follow these rules when using the tennis courts:

- ◆ Lock the tennis courts after use. (combination is [REDACTED])
- ◆ Use of the tennis courts is restricted to members of CVEHOA, family and guests.
- ◆ Courts are to be used for tennis only. No other sports or activities are allowed including, but not limited to roller blades, skateboards, roller skates, scooters or wheels of any kind.
- ◆ Wear appropriate shoes that will not harm the court surface (please don't wear shoes that leave scuff marks or have cleats).

### Fence Repair.

We anticipate completing the fence repairs in August.

### Grounds Maintenance.

With the dry hot weather upon us the common areas are not as green as they were. We are trying our best to conserve water while at the same time maintain our landscape investment.
